

ARMAOR

REAL TIME

The new **production** Armaor modules (**real time**) allow you :

- to **follow** in **real time** your **orders** evolution in the factory
- to **download** your machines
- to know your **machine** and fixing **workers output**
- to make your **steel traceability** , and a **really stock** management.
- to prepare your **deliveries**

The screenshot displays the 'Factory production following' software interface. It features a main window with a 'Production evolution' section showing progress bars for various components like BOURDE-046, BOURDE-051, ACIERS, CH 10*15, Stirrup Machine 1 & 2, and ABOUTS. A worker information pop-up for Manuel Da Silva (N°: 1234, Poste: Monteur) is overlaid on the right. Below, a 'Deliveries planning' window shows a list of orders with columns for date, town, and order number. To the right, a 'Jeudi (04-04-2009)' and 'Lundi (04-02-2009)' schedule shows machine assignments and worker shifts.
