

ARMAOR SOFTWARE

Maintenance Sheet

Maintenance*

A software **maintenance** represents the modification made on a software, after its installation, to correct the mistakes, **improve its efficiency** or other characteristics, and also **adapt** it to a modified environment. The maintenance allows you to be **helped** during your computer system evolution. You also benefit from our software and material know-how to solve possible conflicts inter-application.

YOUR Computer

The maintenance is an important part of your Armaor software. It offers you a **stable** and **fully operational product**. It's the **warranty** of service and help continuity in using the software.

To better help you, we have **modern communication remote control** modules with which we can **quickly help** you, not only on the software but also on its environment.

An **internet** connection on our web site : www.ariadis.fr is **enough** to help you , and have a remote control on your computer, it also gives the possibility to send and receive files.

Last but not least, a **skilled** and **liable** team is here for you : .
